

Alloy Wheel Protection

BACKSTAGE
ADI SOLUTIONS

The vast majority of cars that get returned to us have at least a small amount of alloy wheel damage.

No matter how careful you are, that one pupil is bound to find a kerb when you least expect it!

That's why most of our customers choose our Alloy Wheel Protection bolt-on to cover all cosmetic wheel damage.

Alloy Wheel Protection
£2.50 per week
alongside your rental payment

* By signing up to the Alloy Wheel Protection option you agree to pay £2.50 per week until the end of your current vehicle's contract rental with us. At the end of your contract, once the vehicle is inspected and a full damage invoice produced, we will cover all repair costs for cosmetic damage to alloy wheels. This waiver does not cover other wheel damage such as buckling, cracks, or intense damage to the wheel material.
