

Damage Waiver

We understand that even in the capable care of a driving instructor who takes pride in their working vehicle, accidents can happen that result in cosmetic damage which must be repaired.

The most difficult part of a vehicle return is discussing this damage and the repair costs.

This is why we are now offering an optional damage waiver to all new customers!

Damage Waiver
£6.49 per week
alongside your rental payment

* By signing up to the Damage Waiver option you agree to pay £6.49 until the end of your current vehicle's contract rental with us. At the end of your contract, once the vehicle is inspected and a full damage invoice produced, we will cover up to: £950 on a 1-year rental term, £1400 on a 2-year rental term, £1750 on a 3-year rental term; toward any damage charges payable, not including alloy wheels.

In the majority of cases (as of 2024) this covers the full amount, leaving nothing for you to pay. In the rare case that damage costs exceed this limit, we may ask you to cover the difference in cost.
