## What to Expect

You should be contacted by your driver either the day before, or on the day of collection to confirm their time of arrival.

If you don't hear from them, let us know by calling **0333 12 12 700**.

## The Collection

**Someone should be present** to meet the driver and hand over the keys. We encourage you to take your own dated photos of the state of the vehicle before handing over.

All of the original literature and equipment, and **all service records** should be present in the vehicle at the time of collection. It is not possible to supply these items later.

## Final Invoice

After typically 4 to 8 weeks, your final invoice will be issued including charges for any damage, missing items, or **missing service records**.

If you opted for alloy wheel protection, don't worry about that kerb-rash on the front wheel! Any questions, please contact us on **0333 12 12 700**.
